# THE AGA ELISE SERIES

In the re-imagining of the classic Elise design, AGA took its cues from the modern farmhouse movement itself. Rustic yet refined, the Elise blends old and new in masterful ways, both fresh and timeless, with just a hint of the exquisite.

The AGA Elise is available in a full palette of fourteen colour options representing a wide and exciting spectrum of design expression, from modern contemporary to British traditional. Each range is complimented by stunning cruciform knobs with knurling, shipping standard in Brushed Nickel, but is also available as an after-market option in five additional versatile hardware finishes. The refined elegance of the Elise can be further customized with the addition of stately Antique Brass Handle Stanchions and Knobs. These colours and customizations give homeowners and designers alike a full range of options never before available within this family of AGA ranges.

THE AGA INDUCTION COOKTOP — GUARANTEED TO  
**INDUCE ENVY**

Fast, responsive and incredibly controllable, the induction cooktop option on an AGA range offers the following benefits:

**ENERGY EFFICIENCY**

Powered by electromagnetism, induction technology heats only the pan and its contents, providing up to 90% efficiency.

**FAST AND RESPONSIVE**

It can take as little as five seconds for water to begin to boil and reducing the pan to simmering is equally as fast.

**SAFE**

Its surface retains minimal heat, making it safer for those with small children.

**UNIFORM COOKING**

Because of the ferrous material within the cookware, pans heat at the same level uniformly – eliminating hot spots, and the likeliness of burned contents.

**EASY TO CLEAN**

Since the surface stays cool, spills will not stick or burn onto the surface, making cleaning a simple wipe-down.
