SERIES

THE PROFESSIONAL SERIES

The Professional range from AGA sets the standard for styling, cooking capacity, and flexibility. The sleek European design, powerful and versatile cooktops, and seven-function oven delivers more cooking performance than any other range in its class.

Available in a sophisticated stainless steel finish option, the AGA Professional range offers commercial styling paired with the ultimate in robust cooking power.

36" DUAL FUEL RANGE

FEATURES

Product Dimensions: 35 ½" W x 26" D x 36" H

The AGA Professional 36" Dual Fuel Range with True Convection offers a 5 burner gas cooktop featuring solid brass burners equipped with thermocouple safety. The matte finish grates will not discolor with usage and continuous design allow for cookware to be moved easily from burner to burner. Gourmet cooking is a breeze thanks to this range's 7-mode multi-function oven. Select between modes such as convection broiling, fan assistance, and browning for the meal. Cleanup is a snap thanks to the oven's self-cleaning feature.

MSRP: **\$6,209**

36" INDUCTION RANGE

FEATURES

Product Dimensions: 35 ½" W x 26 ⅓" D x 36 ⅞" H

The AGA Professional 36" Induction Range is the perfect addition to any modern home kitchen. The induction cooktop is fast, responsive and incredibly controllable with up to a 90% heat efficiency. Its surface retains minimal heat, making it safer for those with small children and easier to clean-up spills. The induction cooktop features nine power settings and three gentle temperature options. The Power boost adds more cooking power to each zone, perfect for boiling large pots. The Bridge Zone accommodates larger pans, including the available griddle accessory (*must be purchased separately*). The versatile oven has seven multi-function cooking modes, including True European double-fan dual convection.
